

Interim Electron Microbeam Analysis Laboratory Specialist, University of Michigan, College of Literature, Science and the Arts

The Department of Earth and Environmental Sciences invites applications for an interim laboratory specialist for the Electron Microbeam Analysis Laboratory (EMAL). The position has an anticipated start date of May 15, 2017. The successful applicant may choose to be interviewed for the permanent position, which will be either 100% staff, requiring a minimum of BS degree, or a combination 75% staff and 25% research scientist, requiring a PhD degree. The interim position is 100% staff, requiring a minimum of a B.S. degree, and applicants with M.S. and Ph.D. degrees are strongly encouraged to apply. The successful candidate will manage the highly productive central campus EMAL facility of the University of Michigan. Major instruments in the laboratory include: electron microprobe, FE-SEM, and XRDs. Duration of appointment will be determined by the needs of the applicant and laboratory. For full consideration, send a letter of application, vita, summary of relevant equipment experience, and contact information for three references by April 17, 2017. Please send application materials as one single PDF attachment by email to the UM EMAL search committee: UM.EMAL.Search.Committee@umich.edu. The University of Michigan is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply. For questions about this position, contact Professor Rebecca Lange (becky@umich.edu).
